

**From 24 to 28 February 2021 on www.trentoartfestival.it
The first digital native contemporary art festival in Italy.**

TRENTO ART FESTIVAL is a project dedicated to contemporary, independent, open and inclusive art. The appointment for the first edition of 2021 is completely digital, it will take place exclusively on the internet.

30 exhibition projects from all over Italy and Greece, the guest of honor for this edition.

The idea was born during the past months, as a response to the crisis we are experiencing, we wanted to respond with a smart project, in favor of the Italian and international community of contemporary art.

Organized in collaboration with Arte Maggiore, directed for the first edition by Mauro Defrancesco.

Trento as a melting pot of high-level cultures and cultural projects, with a strong green connotation.

With the patronage of the Autonomous Region of Trentino-Alto Adige / Südtirol, the Autonomous Province of Trento, the Municipality of Trento and the CAI Club Alpine Italian.

We point out the partnership with the Italian **Kooness** project, one of the most important marketplaces in the art world and **Kunstmatrix**, an innovative platform that allows works of art to be exhibited in 3D; provides a further showcase of international visibility for curatorial projects and independent artists.

From 24 to 28 February 2021, collectors, professionals, but also curious and passionate about contemporary art by connecting to the Festival website <http://trentoartfestival.it/> (without any registration obligation) will be able to virtually immerse themselves in the works of individual artists and galleries, browsing in 3D in virtual rooms of 400 square meters. For a total of over 12.000 square meters of virtual exhibition.

VIP AREA in collaboration with Casa Trentini - Atemporary Art Apartments
